# INTRODUCTION

FreeGx is a web application where you can do freelancing with ease and search for seller with extraordinary services to provide you with the best quality experience.

# Problems with other freelancing platforms?

- Absence of Project Management Tool
- Progress report cannot be created
- No concept of co-workers
- The project cannot break down ( NO WBS )
- Project statistics unknown

# How to Resolve these Problems ?

- We will provide a platform to work in a collaborative environment.
- We will allow the seller to add multiple co-workers to increase the productivity of the assigned task
- The system will help to create a work breakdown structure to well organize the projects.
- The system will maintain a weekly or monthly progress reports between sellers and clients

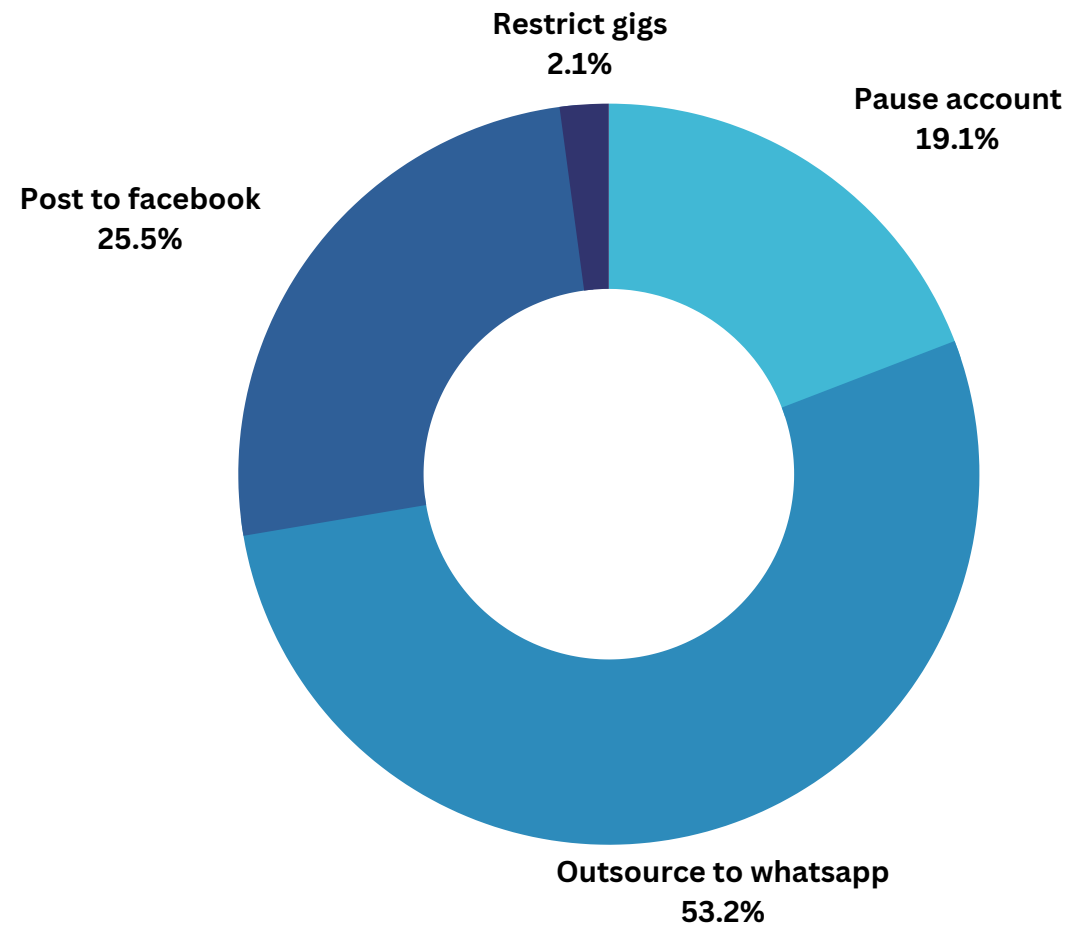

# FINDINGS

**WE HAVE CAREFULLY OBSERVED THE CORE  
REQUIREMENTS OF WHAT USER NEEDS. 70%  
OF PEOPLE FOUND OUR IDEA WILL BE  
HELPFUL FOR THEM**

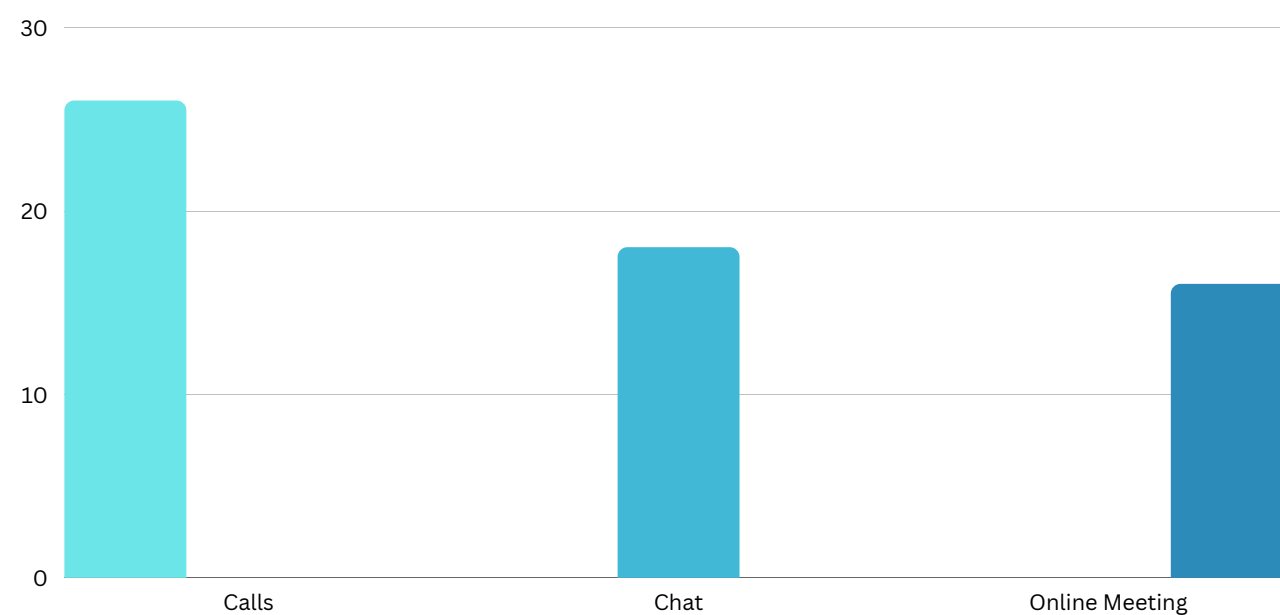

Is there any project management tool provided by your chosen platform?
